Response Ratio	79%

Frequency Analysis

The 9 questions of the SEI are organized around three key elements of teaching. Results are grouped based on these elements.

Instructor's preparedness, organization of material, and clarity of presentation

	Response#	Strongly disagree	Disagree	Neutral	Agree	Strongly agree	N/A
1. The subject matter of this course was well organized	99	1%	3%	4%	18%	74%	0%
5. The instructor was well prepared	98	0%	0%	4%	10%	86%	0%
9. The instructor communicated the subject matter clearly	99	0%	0%	4%	14%	82%	0%

Rapport and instructor commitment

	Response#	Strongly disagree	Disagree	Neutral	Agree	Strongly agree	N/A
3. This instructor was genuinely interested in teaching	99	0%	0%	4%	11%	85%	0%
6. The instructor was genuinely interested in helping students	99	0%	0%	3%	9%	88%	0%
8. The instructor created an atmosphere conducive to learning	99	0%	0%	4%	15%	81%	0%

Students' sense of their own learning

	Response#	Strongly disagree	Disagree	Neutral	Agree	Strongly agree	N/A
2. This course was intellectually stimulating	99	0%	0%	3%	24%	73%	0%
4. The instructor encouraged students to think for themselves	99	0%	1%	4%	12%	83%	0%
7. I learned a great deal from this instructor	99	0%	1%	7%	13%	79%	0%

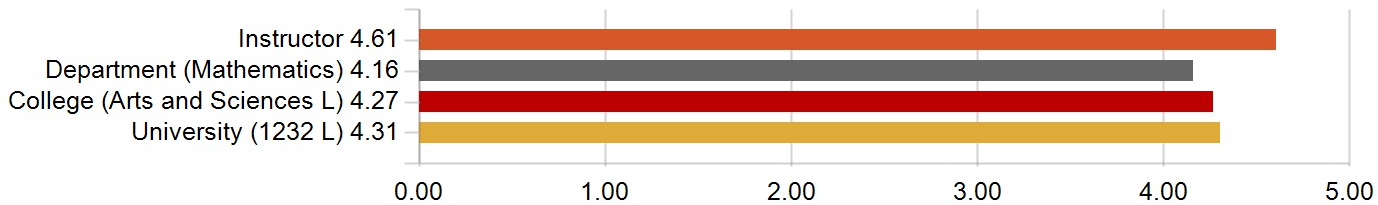

Overall, I would rate this instructor as... (Question 10)

Response#	Poor	Fair	Neutral	Good	Excellent
99	0%	0%	2%	11%	87%

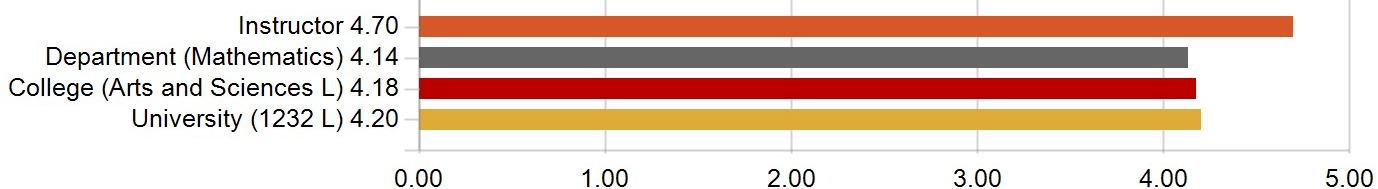

Score Analysis

Your mean scores are summarized below. Comparison group scores are provided. The College and the University comparison groups are based on the size of your class. The Department group is not. Class size groups are 1-19, 20-60, and 61+. This information is also presented as a table at the end of this section.

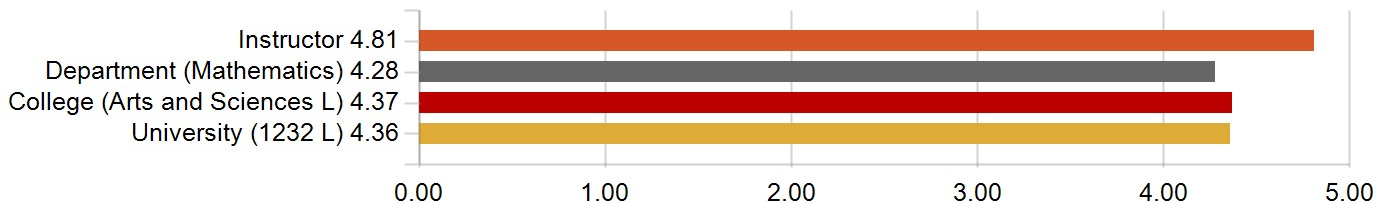

1. The subject matter of this course was well organized

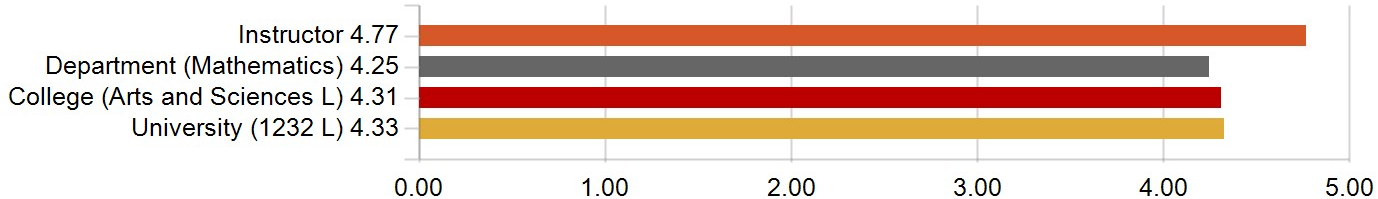

2. This course was intellectually stimulating

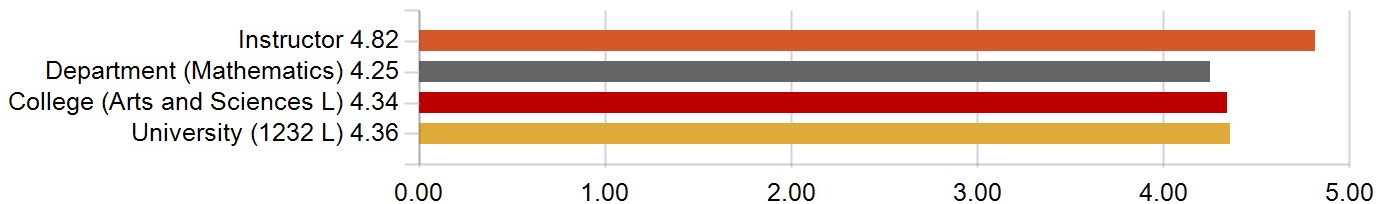

3. This instructor was genuinely interested in teaching

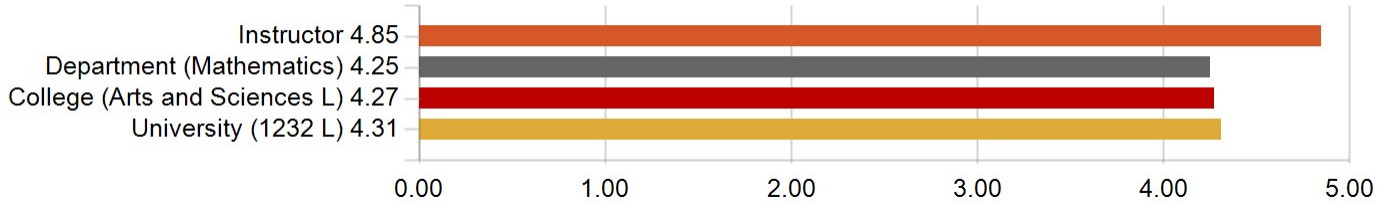

4. The instructor encouraged students to think for themselves

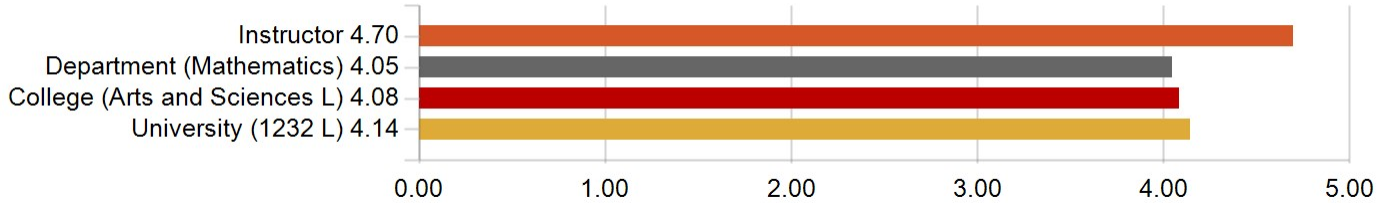

5. The instructor was well prepared

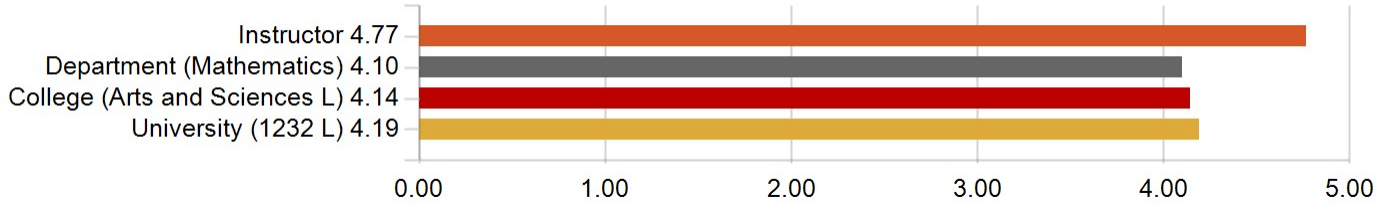

6. The instructor was genuinely interested in helping students

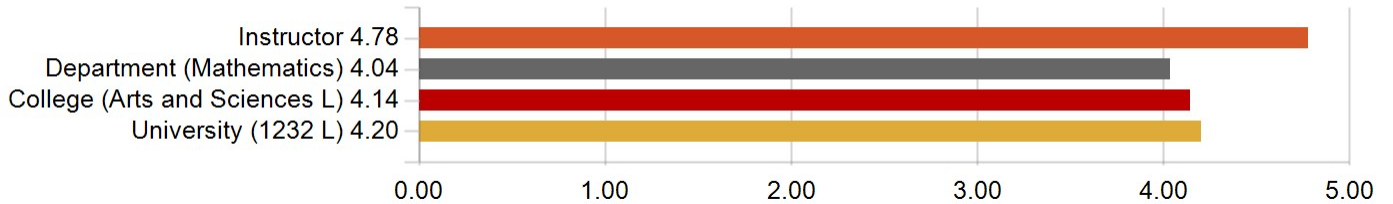

7. I learned a great deal from this instructor

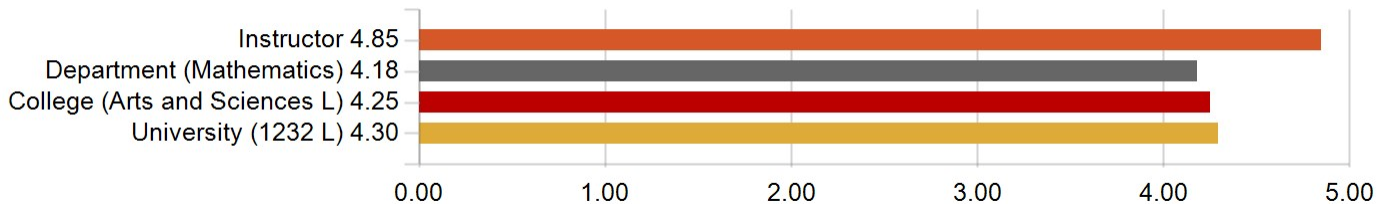

8. The instructor created an atmosphere conducive to learning

9. The instructor communicated the subject matter clearly

10. Overall, I would rate this instructor as

Question	Instructor		Department (Mathematics)		College (Arts and Sciences L)		University (1232 L)	
	Mean	Standard Deviation	Mean	Standard Deviation	Mean	Standard Deviation	Mean	Standard Deviation
1. The subject matter of this course was well organized	4.61	0.79	4.16	1.04	4.27	0.98	4.31	0.94
2. This course was intellectually stimulating	4.70	0.52	4.14	1.06	4.18	1.01	4.20	0.99
3. This instructor was genuinely interested in teaching	4.81	0.49	4.28	1.00	4.37	0.93	4.36	0.92
4. The instructor encouraged students to think for themselves	4.77	0.57	4.25	0.99	4.31	0.92	4.33	0.90
5. The instructor was well prepared	4.82	0.48	4.25	1.01	4.34	0.93	4.36	0.90
6. The instructor was genuinely interested in helping students	4.85	0.44	4.25	1.03	4.27	0.99	4.31	0.95
7. I learned a great deal from this instructor	4.70	0.65	4.05	1.17	4.08	1.11	4.14	1.06
8. The instructor created an atmosphere conducive to learning	4.77	0.51	4.10	1.12	4.14	1.07	4.19	1.02
9. The instructor communicated the subject matter clearly	4.78	0.51	4.04	1.18	4.14	1.10	4.20	1.04
10. Overall, I would rate this instructor as	4.85	0.41	4.18	1.13	4.25	1.05	4.30	0.99

Her teaching method was very nice and easy to follow. She always made sure no one was behind or was confused.
The moment you meet Professor Rudman, it is very apparent that she cares for her students and their success. She spends a great effort to make sure lectures are worth going to and are useful. She does a great job helping students and responds to emails unnaturally fast.
She was a fantastic professor. She was always very realistic and that helped us as students greatly, since we were able to connect with her more as a person. She always answered questions in a clear manner and even made the effort to learn all her students' names.
I really liked your lectures this year. The format, where you concisely but thoroughly reviewed the video lecture notes at the beginning followed by clear walkthroughs for several homework problems was very helpful. I also appreciated how you tried to learn everyone's name, make sure everyone understood the material, and were an enthusiastic and honest lecturer. Have a great summer!
Amazing.
I have never taken a math class in my entire life as well put together as this class. A tremendous amount of gratitude should go to

Comments
Jim Talamo for creating such a good class. As for Emily Rudman she was an amazing instructor. Having someone like her, who is so genuinely interested in helping students learn was such a nice change compared to the majority of my classes at OSU. Other departments and courses should take note on how this class is structured and taught.
She was very helpful. She genuinely wanted to help students and responds to emails fast. Gives as much insight on questions as possible.
Was very excited to answer questions and engaged the whole class. Truly wanted each student to succeed and was very available for extra help.
I lucked out with Professor Rudman, I have never met a teacher who really wants to get involved and know the students. She makes an effort to reach out to students and create a safe space for all of the students. The class of like 100 people will all ask questions and reach out to her in class with no hesitation. It is amazing how she has this effect on the students and of the class culture. I would 100% take another class with this amazing professor. She teaches very clearly too.
Professor Rudman made a difficult class much easier to understand and she has a super positive attitude that makes students want to come to class!
Great Instructor!!
Professor Rudman is the best Professor I have had at OSU. Keep her around, she is good for the Math department as I am sure many professors are very boring and uninteresting. Professor Rudman is very engaging and a good person overall.
Professor Rudman was the most caring instructor I have ever encountered. She catered to the needs of everybody, whether you were behind on understanding content or exceeding their expectations. She wanted success from her students and made it clear through her teaching style.
Sooooooo helpful. Helped me understand the material
I feel bad because I sort of disappeared during the last half of the semester. I just was incredibly unmotivated to go to class and wake up early. I would say Emily was amazing and understanding and sweet. She also did a good job of explaining things in a way that made sense.
One of the best teachers I have ever had. Made me enjoy math again.
Professor Rudman always came well prepared to class and made things very easy to understand. She would routinely look to the class to see how people were feeling and making sure everyone was following along with the content. She also gave very good explanations during office hours and through emails I sent her. This course was a lot of fun and Professor Rudman played a huge part in that.
No more comments.
She's so sweet ugh I wish all teachers in the math department were like her :)
Prof. Rudman worked tirelessly to help students. I should've gone to lecture more often. :(
Emily is one of my favorite professors. She kept class interesting and she is so funny. You can tell she really cares for each one of her students and she makes sure everyone understands everything.
Professor Rudman makes the effort to connect with her students and even learns their names! She is excellent at teaching concepts and ensuring that students have a good understanding conceptually, rather than just teaching them so that they're ready to take an exam. She makes herself available to students and overall has a warm personality and a great sense of humor. She is an advocate for students and encourages them to come to her if they feel as though they lost points for a silly reason. She teaches for people like me, who maybe aren't the fastest or best at math, which makes me feel a lot better about myself.
Dr. Rudman is a great professor! Super approachable and creates a great atmosphere in class. She has a talent for simultaneously moving very slowly through material in class but also covering a lot of content. I came to every lecture this semester because I never felt like I left class without valuable information. She always comes prepared and with a plan which I really appreciated. Overall, she is an amazing instructor who can teach really well and I wouldn't hesitate to take a class with again!
Always prepared in class.
N/A
Best professor I ever had. She truly does care about the material and students, and wants people to do their best. What impress me is that she tries learning people's name is such a big class.
I really enjoyed Professor Rudman's class! She always was well prepared and very to the point with us during lecture. Also, she was super responsive to questions both in person and over email and I felt very comfortable being able to go to her for help. She also makes sure that everyone in the room is able to understand the topics being covered which is appreciated immensely.
Of all of my actual professors in college, Rudman is by far my favorite. She is the only one I would actually say is a good and caring professor.
Wonderful and engaging
Best professor I have had at OSU.

Comments

The best math teacher I have had in my entire education. Thank you for being so kind and so helpful this semester, you helped me grow so much as a learner. Have a wonderful summer!

Wonderful instructor, very clear and engaging. However, I despise how the lectures are organized with the flipped class setting. I like being lectured to and taking notes live.
